PRESS RELEASE

Aegir Consult CEO Named Among Top 25 Tech Leaders of the Year at IT Confex 2025

Aegir Consult proudly announces that its Founder and CEO, **Victor W. Wahome**, has been honoured as one of the Top 25 Tech Leaders of the Year at the 3rd Information Technology Confex (IT Confex 2025), hosted by **DigitalConfex** on August 23, 2025, at the Holiday Inn Mayur Vihar, New Delhi, India.

The IT Confex is India's premier convergence of technology leaders, innovators, and disruptors, bringing together over 180 professionals to spotlight cutting-edge advancements in artificial intelligence, cybersecurity, cloud infrastructure, and digital transformation. This year's event featured keynote sessions from global tech visionaries, hands-on workshops, speed networking opportunities, and an expo floor showcasing innovative solutions shaping the future of IT.

Victor Wahome was recognized for his leadership in driving GeoAI-powered enterprise systems, regulatory technology (RegTech), and digital transformation solutions across Africa. Under his stewardship, Aegir Consult has delivered award-winning projects for governments, regulators, and private enterprises, earning recognition at the ESRI Partner Awards, CIO 100, and commendations from legacy institutions such as AFRALTI.

"This recognition reflects the tireless effort of our team at Aegir Consult and the trust of our partners. Together, we are building inclusive, data-driven solutions that strengthen governance, expand connectivity, and accelerate Africa's digital future," said Wahome.

In addition to the award, Wahome will deliver a post-event webinar hosted by DigitalConfex titled "**From Pilot to Production: Proven Playbooks for Enterprise-System Deployment in Africa.**" The session is designed to share actionable insights with regional and global audiences on how to scale enterprise systems successfully from concept to production.
